CARRIER OBJECTIVE

To secure a challenging position as a SQL Freshman in a reputable organization where I can apply and enhance my skills in database management, data analysis, and SQL programming. I aim to contribute to the success of the organization by leveraging my strong problem-solving abilities and passion for data-driven decision-making. Through continuous learning and professional growth, I strive to become a proficient SQL professional and make valuable contributions to the organization's data management and analysis processes.

SKILLS

- mysql sql oracle
- Proficient in SQL programming, with expertise in writing complex SQL queries, stored procedures, and triggers. Experience in database administration tasks such as user management, backup and recovery, and database security.

PROJECTS

Common Table Expression Concepts

- Extensive experience in writing complex queries using CTEs to enhance query performance and readability.
- Skilled in using CTEs to break down complex problems into smaller, more manageable parts.
- Experienced in using CTEs to simplify and modularize complex joins, subqueries, and aggregations Familiarity with CTE-related.

Windows Functions For Mysql

- Skilled in writing complex queries involving Windows functions to perform calculations, aggregations, and partitioning within result sets.
- Strong understanding of the ORDER BY clause and its role in defining the partitioning and ordering of data when using Windows functions.
- Familiarity with the concept of window frames and the different frame options available, such as ROWS, RANGES, and GROUPS.
- Experience in using Windows functions for tasks such as calculating running totals, finding top N records, identifying gaps and islands in data, and generating dynamic rankings.

DECLARATION

I hearby declare that the above furnished information are correct and I am responsiabile for accarcy.
